# OUR STORY

## HEMPTIQUE®

For centuries hemp has been grown and used in many European countries including Hungary. Peter Nyari, the founder of Hemptique, was born in Hungary and was introduced to hemp products through his culture and its role in sustainability and preservation efforts. Hungary's traditional national costume is made of hemp! Hemp was also a prominent crop in the early history of the United States.

With his background, passion and entrepreneurial spirit, Peter began Trade Maker International to manufacture hemp fiber products. On an overseas trip to one of the factories, Peter had the idea of starting a company to develop branded hemp products beyond the common raw and natural looking materials.

He wanted a name that combined Old World history that dates back to Columbus but that also embodied a new vision of quality hemp products. Hemp + Antique = Hemptique- Established in 2006. Hemptique's mission is to bring premier quality, vibrant and useful hemp products to consumers.

Peter's wife Klara Nyari, who is also Hungarian, joined the company in its infancy. Her many years of creative expertise in design, fashion and product development has helped further Hemptique's mission

of revitalizing hemp as the preferred choice for eco-friendly products.

Directing development, design, packaging efforts as well as color selections, Peter and Klara were able to establish Hemptique as a recognized industry leader in high quality, eco-friendly and sustainable products. Their talented team continually explores exciting new products that expand the natural fiber market.

Hemptique's line now includes hemp, cotton and bamboo cords, twines, bees wax cords, ropes, yarns, garments, fabrics, handmade papers, bags, pet products and other accessories.

All of us at Hemptique have a passion for the experience and usefulness of natural products and the important role it plays in the future of this planet.
