Gomille Display XMAS – Motifs

Christmas wooden motifs have an exclusive design and the best quality. They are 100% sustainably produced in France.

Christmas wooden motifs are suitable for painting, sticking on with fabrics or in decoupage technique. Even on their own, they are the right base for every occasion and every message. With the support rail, the Gomille letters create a great table or room decoration. The wood material is made from by-products of wood extraction and processing. The glue is produced from press cake from the extraction of edible oil and is therefore also sustainable.

Gomille Display B – Letters

Gomille wooden letters have an exclusive design and the best quality. They are 100% sustainably produced in France.

Gomille wooden letters are suitable for painting, sticking on with fabrics or in decoupage technique. Even on their own, they are the right basis for any occasion and every message. With the support rail the Gomille motifs create a great table or room decoration. The wood material is from by-products of wood extraction and processing. The glue is produced from press cake, from the extraction of edible oil and is therefore also sustainable.

PappArt – really sustainable – really stable – super light – perfect for many creative works.

The raw materials for PappArt are old newspapers, grey cardboard, wrapping paper and rice glue. Figures are made from strips of recycled paper and are therefore as resource-efficient as possible. The boxes are made of grey cardboard with a cover of wrapping paper. Grey cardboard is an unglued, one-sided, smooth, round-screen cardboard made of **100% recycled fibres**. The wrapping paper does not use virgin wood fibres and **requires less water and energy in the production process.**

A creative product can hardly be more sustainable and resource-saving. In addition, the **positive social aspect** is not to be overlooked. PappArt items are made by hand, instead of in an energy-intensive mass production, many families can make a living from this. Our PappArt objects are produced in the Philippines by homeworkers. For this purpose, the families organise themselves for the production process on the veranda, in the garage or in a back room. Larger orders are produced in a village community.

The PappArt figures are made in various steps. Strips of paper cut by hand and glued to hand-carved wooden models, with a home-made glue consisting only of rice starch, water and a dash of vinegar. After drying, each piece is carefully cut open, removed from the mould and reassembled. Boxes of the blanks are cut or punched out of grey cardboard and glued together with packing paper using rice glue. Finally, each piece receives the final layer of brown wrapping paper that **makes the PappArt products so typical.**

IZINK Textile paint

45 530 .. IZINK Fabric dye, spray, 80 ml SQ: 3 pc

IZINK Textile Spray:

An easy batik look ... with the innovative IZINK textile spray. The alternative to classic washing machine dyes or batik dyes with fixatives is suitable for dyeing natural fibres. There are 15 different colours that can be mixed with each other. Less intense colours can be achieved by adding water (up to 30%). Dry IZINK textile dyes flat (e.g. on a clothes horse), not in the sun. Iron fix in 5 minutes. Washable up to 40 °C.

IZINK Glitter (S) is a loose fine glitter for sprinkling, decorating and embellishing various surfaces.

Easy to design and very effective and regal in its effect. Very economical. Simply sprinkle into damp varnish (clear varnish 93 169 04) or glue (Dekofix 91 211 .. / Transparent craft glue 95 862 ..) and allow to dry.
